Subject: Retired Main Specialty Codes
Effective Date: Immediate
Reason for Change: Clarification
Publication Date: 22 August 2013

Background:

The Main Specialty Codes are used to report the Main Specialty of the Consultant responsible for the activity. Following a request sent to the NHS Data Model and Dictionary helpdesk, the values for retired Main Specialty Codes have been relisted for the purposes of analysing historical data, as well as clarifying the date on which the specific codes were retired.

This Data Dictionary Change Notice does not reinstate the Main Specialty Codes.

MAIN SPECIALTY CODE

Change to Attribute: Changed Description

A unique code identifying each [MAIN SPECIALTY](#) designated by Royal Colleges. This is the same as the [NHS OCCUPATION CODES](#) describing specialties.

Specialties are divisions of clinical work which may be defined by body systems (dermatology), age (paediatrics), clinical technology (nuclear medicine), clinical function (rheumatology), group of diseases (oncology) or combinations of these factors. Only Specialty titles recognised by the Royal Colleges and Faculties should be used. This list is maintained by the General and Specialist Medical Practice (Education, Training and Qualifications) Order 2003 and European Primary and Specialist Dental Qualifications Regulations 1998.

Each [CONSULTANT](#) should be assigned a [MAIN SPECIALTY](#) by the [ORGANISATION](#) to which the [CONSULTANT](#) is contracted. For physicians and surgeons with a generalist component to their work, the [MAIN SPECIALTY](#) should be general medicine or general surgery. The hallmark of a general physician or general surgeon is the continued care of unselected emergency referrals. The [MAIN SPECIALTY](#) is specific to a [Health Care Provider](#). If, for example, a [CONSULTANT](#) physician working in two [Health Care Providers](#) has a generalist component to the work in one and not the other, general medicine is only assigned as the [MAIN SPECIALTY](#) in the former case. [CONSULTANTS](#) in general medicine or general surgery may also have specialist interests and these should be recorded as well as the [MAIN SPECIALTY](#).

The initial source of the information should be the designation on the [CONSULTANT's](#) contract. This should be checked periodically against the work a [CONSULTANT](#) is actually doing so that the statistics can relate to a [CONSULTANT's](#) current type of work.

The [MAIN SPECIALTY](#) only should be used for the purpose of producing Specialty costing statistics and for Workforce statistics where links with [ACTIVITY](#) and finance are required. Other specialist interests of [CONSULTANTS](#) may be recorded for workforce planning purposes.

This will be used to indicate the skill level of medical and dental employees.

Pseudo [MAIN SPECIALTY CODES](#) should be used in Commissioning Data Set messages for lead [CARE PROFESSIONALS](#) other than [CONSULTANT](#) medical and dental staff e.g. 560, 950 and 960.

The [MAIN SPECIALTY CODE](#) for [GENERAL PRACTITIONERS](#) is General Medical Practice or General Dental Practice.

Joint [Consultant Clinic ACTIVITY](#) should be recorded against the [MAIN SPECIALTY CODE](#) of the [CONSULTANT](#) managing the clinic.
