Type: Data Dictionary Change Notice
Reference: 1391
Version No: 1.0
Subject: Review of Central Returns (ROCR) Discontinuations - Referral to Treatment (RTT) Summary Patient Tracking List Data Set
Effective Date: Immediate
Reason for Change: Change to Data Standards
Publication Date: 15 January 2014

Background:

The recent Department of Health Fundamental Review of Data Returns has recommended the discontinuation of a number of regular data collections.

A number of Central Returns are to be discontinued as they will cease after the conclusion of the Fundamental Review.

This Data Dictionary Change Notice (DDCN) retires the following Data Set in the NHS Data Model and Dictionary.

- Referral to Treatment (RTT) Summary Patient Tracking List Data Set

REFERRAL TO TREATMENT SUMMARY PATIENT TRACKING LIST DATA SET OVERVIEW (RETIRED)_ renamed from REFERRAL TO TREATMENT SUMMARY PATIENT TRACKING LIST DATA SET OVERVIEW

Change to Supporting Information: Changed Name, status to Retired, Description

Referral to Treatment Summary Patient Tracking List to support delivery of 18 week waiting times

The national 10-Week Summary Patient Tracking List is intended to collect a set of performance information about [PATIENTS](#) with active [REFERRAL TO TREATMENT PERIODS](#) that are nearing the 10-week target date. Its main purpose is to focus on those [PATIENTS](#) that may potentially breach the 10-week target, providing a structure which enables the most 'at risk' [PATIENTS](#) to be clearly identified. The 10-Week [Referral to Treatment Summary Patient Tracking List](#) does not cover all the components of a Patient Tracking List that individual Providers and Commissioners may wish to develop and share – especially at [PATIENT](#) level. The sharing of any extended data sets between Providers and Commissioners is subject to local arrangements. Examples of patient-level data sets developed during piloting of this central return, are available from the [Department of Health 10-week website](#) (address below):

For most [PATIENTS](#), the start of a [REFERRAL TO TREATMENT PERIOD](#) begins with a GP [REFERRAL REQUEST](#) to a [CONSULTANT](#) in secondary care. In addition, this data set also covers [REFERRAL REQUESTS](#) to [CONSULTANTS](#) from:

- [GENERAL DENTAL PRACTITIONERS \(GDP\)](#)
- [General Practitioners with Special Interests \(GPwSi\)](#) or [Dentists with Special Interests \(DwSi\)](#)
- [OPTOMETRIST](#)
- [Orthoptists](#)
- [Accident and Emergency Departments](#) (where [PATIENTS](#) are transferred to an elective pathway)
- Minor injuries units (where [PATIENTS](#) are transferred to an elective pathway)
- Walk-in centres (WICs) (where [PATIENTS](#) are transferred to an elective pathway)
- Genitourinary medicine clinics
- National [Screening Programmes](#) (for non-malignant conditions)
- Specialist [NURSES](#) or allied health professionals where [Primary Care Trusts](#) have approved these mechanisms locally.

Referrals to nurse consultants and allied health professionals are currently out of scope for 10-week Referral To Treatment monitoring.

Guidance on the measurement of [REFERRAL TO TREATMENT PERIODS](#), 10-week clock rules, and Frequently Asked Questions, are all available from the [Department of Health 10-week website](#). Additional Frequently Asked Questions about 10-weeks are also available from the [NHS Data Model and Dictionary website](#).

The [Referral to Treatment Summary Patient Tracking List](#) is in three parts, as follows:

Parts 1A and 1B: Patients where the intent is to treat in an outpatient setting (including [PATIENTS](#) where it has not yet been decided whether to admit for treatment or treat in outpatients)

Part 1A should be completed for [PATIENTS](#) without a [DECISION TO ADMIT](#) for treatment, who have not had an [ACTIVITY](#) that ends the [REFERRAL TO TREATMENT PERIOD](#) (such as their first definitive treatment, a decision to start active monitoring, or who did not attend their first [APPOINTMENT](#))

AND either

a: do not have a future [APPOINTMENT](#) where the anticipated [REFERRAL TO TREATMENT PERIOD STATUS](#) is 30

OR

b: do have a future [APPOINTMENT](#) where the anticipated [REFERRAL TO TREATMENT PERIOD STATUS](#) is 30, but not earlier than the [REFERRAL TO TREATMENT PERIOD BREACH DATE](#).

Part 1B should be completed for [PATIENTS](#) without a [DECISION TO ADMIT](#) for treatment, who have not had an [ACTIVITY](#) that ends the [REFERRAL TO TREATMENT PERIOD](#) (such as their first definitive treatment, a decision to start [Active Monitoring](#), or who did not attend their first [APPOINTMENT](#))

AND

whose [REFERRAL TO TREATMENT PERIOD BREACH DATE](#) has been reached.

Note that parts 1A and 1B of the 10-Week Referral To Treatment Summary Patient Tracking List are required for submission from 6 January 2008 onwards. This item has been retired from the NHS Data Model and Dictionary.

Parts 2A and 2B: Patients where the intent is to admit for treatment The last live version of this item is available in the November 2013 release of the NHS Data Model and Dictionary.

Part 2A should be completed for [PATIENTS](#) with a [DECISION TO ADMIT](#) for treatment, who have not had an [ACTIVITY](#) that ends the [REFERRAL TO TREATMENT PERIOD](#) (such as their first definitive treatment, a decision to start [Active Monitoring](#), or who did not attend their first [APPOINTMENT](#))

AND either

a: do not have an agreed [OFFERED FOR ADMISSION DATE](#) with an anticipated [REFERRAL TO TREATMENT PERIOD STATUS](#) of 30

OR

b: do have an agreed [OFFERED FOR ADMISSION DATE](#) with an anticipated [REFERRAL TO TREATMENT PERIOD STATUS](#) of 30, but not earlier than the [REFERRAL TO TREATMENT PERIOD BREACH DATE](#).

Part 2B should be completed for [PATIENTS](#) with a [DECISION TO ADMIT](#) for treatment, who have not had an [ACTIVITY](#) that ends the [REFERRAL TO TREATMENT PERIOD](#) (such as their first definitive treatment, a decision to start [Active Monitoring](#), or who did not attend their first [APPOINTMENT](#))

AND

whose [REFERRAL TO TREATMENT PERIOD BREACH DATE](#) has been reached.

Note that Parts 2A and 2B of the 10-Week Referral To Treatment Summary Patient Tracking List are required for submission from July 2007 onwards. Access to this version can be obtained by emailing information.standards@hscic.gov.uk with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

Part 3 – Patients with a clock stop in the last week (who have either been treated, or whose [REFERRAL TO TREATMENT PERIOD](#) ended for other reasons):

This section should be completed for [PATIENTS](#) with a [REFERRAL TO TREATMENT PERIOD END DATE](#) within the last 7 days.

Note that within Part 3 of the 10-Week Referral To Treatment Summary Patient Tracking List, the three data elements relating to admitted [PATIENTS](#) are required for submission from July 2007 onwards, the other three data elements relating to non-admitted [PATIENTS](#) are required for submission from 6 January 2008 onwards.

Full guidance on the completion and submission of the 10-Week Referral To Treatment Summary Patient Tracking List, including calculation of waiting times, is available from the [Department of Health 10-week website](#) at: <http://webarchive.nationalarchives.gov.uk/+/www.dh.gov.uk/en/Publicationsandstatistics/Statistics/Performanceandstatistics/10WeeksReferraltotreatmentstatistics/index.htm>
