NHS Data Model and Dictionary Service

Type: Data Dictionary Change Notice
Reference: 1425
Version No: 1.0
Subject: Retirement of Standards
Effective Date: 1 April 2014
Reason for Change: Retirement of Data Standards
Publication Date: 27 February 2014

Background:

The Information Standards Board for Health and Social Care (ISB) has conducted a review of all Data Set Change Notices (DSCNs) and Information Standards Notices (ISNs) issued since 1987, to update its portfolio of standards prior to the handover of responsibility to NHS England, the Health and Social Care Information (HSCIC) and Public Health England. The full list can be found on the ISB [Advanced Notification - Withdrawal](#) issued 26/09/13.

This review has identified a number of items in the NHS Data Model and Dictionary which do not have a Data Set Change Notice or Information Standards Notice and are not used within a data set in the NHS Data Model and Dictionary.

This Data Dictionary Change Notice (DDCN) retires items in the NHS Data Model and Dictionary which fit into this category.

CONSULTANT CLINIC

Change to Supporting Information: Changed Description

A [Consultant Clinic](#) is a [CLINIC OR FACILITY](#).

A [Consultant Clinic](#) is an [Out-Patient Clinic](#).

A [Consultant Clinic](#) is an administrative arrangement enabling [PATIENTS](#) to see a [CONSULTANT](#), the

[CONSULTANT](#)'s staff and associated health professionals. The holding of a clinic provides the opportunity for consultation, investigation and treatment. [PATIENTS](#) normally attend by prior [APPOINTMENT](#). Although a [CONSULTANT](#) is in overall charge, the [CONSULTANT](#) may not be present on all occasions that the clinic is held. However, a member of the [CONSULTANT](#)'s firm or locum for such a member, must always be present. An individual [CONSULTANT](#) may run more than one clinic in the same or different locations. This also includes clinics run by [GENERAL PRACTITIONERS](#) acting as [CONSULTANT](#) (see definition of '[CONSULTANT](#)').

For shared clinics the [Shared Care Out-Patient Consultant](#) should be recorded.

Clinics not controlled by a [CONSULTANT](#) (or [GENERAL PRACTITIONER](#)) should not be included, e.g. those run by midwives (see [Midwife Clinic](#)). [Consultant Clinic Sessions](#) are actual occurrences of [Consultant Clinics](#).

Information recorded for a [Consultant Clinic](#) includes:

[NUMBER OF SESSIONS INTENDED](#)
[PRIOR APPOINTMENT INDICATOR](#)
[SESSION TYPE](#)
