## Background:

The Next Steps on the [NHS Five Year Forward View \(5YFV\)](#) was published on 31 March 2017. This plan explains how the 5YFV's goals will be implemented over the next two years. Urgent and Emergency Care (UEC) is one of the NHS' main national service improvement priorities, with focus on improving national Accident and Emergency performance whilst making access to services clearer for patients. One element of the UEC section of the 5YFV is "Roll-out of standardised new 'Urgent Treatment Centres'".

The Attribute "EMERGENCY CARE DEPARTMENT TYPE" will be uplifted at the next version of Commissioning Data Set Type 011 Emergency Care, to amend the National Code values to support the introduction of Urgent Treatment Centres.

Currently all Urgent Treatment Centres are classed as "EMERGENCY CARE DEPARTMENT TYPE" National Code '03'.

This Data Dictionary Change Notice (DDCN) updates the NHS Data Model and Dictionary as follows:

- Adds a new NHS Business Definition "Urgent Treatment Centre"
- Adds a note to Data Element "EMERGENCY CARE DEPARTMENT TYPE"
- Adds a note to Attribute "EMERGENCY CARE DEPARTMENT TYPE".
