

Type: Data Dictionary Change Notice
Reference: 1728
Version No: 1.0
Subject: Retirement of Referral To Treatment Data Set
Effective Date: Immediate
Reason for Change: Retirement of out of date content
Publication Date: 30 April 2019

Background:

As part of the ongoing work to implement a new version of the NHS Data Model and Dictionary, a review of legacy and out of date data sets contained within the NHS Data Model and Dictionary has been carried out.

A number of data sets are out of date and have been identified for retirement from the NHS Data Model and Dictionary. Note that the relevant Data Set Change Notices (DSCNs) have been reviewed and withdrawn where appropriate. This Data Dictionary Change Notice (DDCN) retires the Referral To Treatment Data Set.

To view a demonstration on "How to Read an NHS Data Model and Dictionary Change Request", visit the NHS Data Model and Dictionary help pages at: https://www.datadictionary.nhs.uk/Flash_Files/changerequest.htm.

Referral to Treatment Data to support delivery of 18 weeks

The scope of this collection is described in [Referral To Treatment Periods Included In Referral To Treatment Consultant-Led Waiting Times Measurement](#). The minimum requirements for this data set are:

- Measure [REFERRAL TO TREATMENT PERIOD DURATION \(UNADJUSTED\)](#).
- Report on all [PATIENTS](#) with a [REFERRAL TO TREATMENT PERIOD END DATE](#) during the [REPORTING PERIOD](#). [Organisations](#) should, as a minimum, report [REFERRAL TO TREATMENT PERIOD DURATIONS \(UNADJUSTED\)](#) for all [PATIENTS](#) whose [REFERRAL TO TREATMENT PERIOD START DATE](#) is after 1st January 2007.
- In addition, [Organisations](#) are asked to report the number of [PATIENTS](#) for whom they are able to identify a [REFERRAL TO TREATMENT PERIOD END DATE](#), but not a corresponding [REFERRAL TO TREATMENT PERIOD START DATE](#), against the [REFERRAL TO TREATMENT PERIOD TIME BAND](#).
- Capture all [REFERRAL TO TREATMENT PERIOD START DATES](#) and [REFERRAL TO TREATMENT PERIOD END DATES](#) that encompass outpatient attendances or inpatient/ day case admissions.

Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

REFERRAL TO TREATMENT DATA SET OVERVIEW (RETIRED) renamed from REFERRAL TO TREATMENT DATA SET OVERVIEW

Change to Supporting Information: Changed status to Retired, Name, Description

- Retired Referral To Treatment Data Set Overview
- Changed Name from Data_Dictionary.Messages.Central_Return_Data_Sets.Overviews.Referral_To_Treatment_Data_Set_Overview to Retired.Data_Dictionary.Messages.Central_Returns_Data_Sets.Referral_To_Treatment_Data_Set_Overview
- Changed Description

REFERRAL TO TREATMENT PERIOD INCLUDED IN REFERRAL TO TREATMENT CONSULTANT-LED WAITING TIMES MEASUREMENT

Change to Supporting Information: Changed Description

[Referral To Treatment Period Included In Referral To Treatment Consultant-Led Waiting Times Measurement](#) is any [REFERRAL TO TREATMENT PERIOD](#) included in the reporting for Referral To Treatment Consultant-Led Waiting Times Measurement.

It includes all [Cancer Referral To Treatment Periods](#).

It is all [Measured Referral to Treatment Periods](#) where the [SERVICE REQUEST](#) is to a [Consultant Led Service](#) or an [Interface Service](#) except:

- any [REFERRAL TO TREATMENT PERIODS](#) where the [PATIENT](#) did not attend their first [APPOINTMENT](#) during a [REFERRAL TO TREATMENT PERIOD](#) ([REFERRAL TO TREATMENT PERIOD STATUS](#) is National Code 'Did not attend - the [PATIENT](#) did not attend the first [CARE ACTIVITY](#) after the referral')
- any [REFERRAL TO TREATMENT PERIODS](#) which are not commissioned by or on behalf of the English NHS.

~~Two alternative approaches to calculating the duration of a [Measured Referral to Treatment Period](#) are defined in data elements [REFERRAL TO TREATMENT PERIOD DURATION \(UNADJUSTED\)](#) and [REFERRAL TO TREATMENT PERIOD DURATION \(ADJUSTED\)](#).~~

	REASONABLE OFFER INDICATOR

REFERRAL TO TREATMENT PERIOD

Change to Class: Changed Description

A subtype of [ACTIVITY GROUP](#).

~~This is the part of a [PATIENT PATHWAY](#) covered by [Measured Referral to Treatment Period](#). A [REFERRAL TO TREATMENT PERIOD](#) is the part of a [PATIENT PATHWAY](#) covered by [Measured Referral to Treatment Period](#).~~

A sub-set of [REFERRAL TO TREATMENT PERIODS](#) are used to measure the 18 weeks [Referral To Treatment Period Included In Referral To Treatment Consultant-Led Waiting Times Measurement](#).

~~It is the period from referral to the start of [First Definitive Treatment](#). For [Referral To Treatment Consultant-Led Waiting Times](#), the duration of a [REFERRAL TO TREATMENT PERIOD](#) is measured by [REFERRAL TO TREATMENT PERIOD DURATION \(ADJUSTED\)](#). For [REFERRAL TO TREATMENT PERIODS](#) measured under [Allied Health Professional Referral To Treatment Measurement](#), no adjustments may be applied and there are no tolerances, but [EARLIEST REASONABLE OFFER DATE](#) and [EARLIEST CLINICALLY APPROPRIATE DATE](#) may be used locally to understand the impact of patient chosen or clinically appropriate delays. For [REFERRAL TO TREATMENT PERIODS](#) measured under [Allied Health Professional Referral To Treatment Measurement](#), there are no tolerances, but [EARLIEST REASONABLE OFFER DATE](#) and [EARLIEST CLINICALLY APPROPRIATE DATE](#) may be used locally to understand the impact of [PATIENT](#) chosen or clinically appropriate delays.~~

If the [PATIENT](#) is referred from one [Health Care Provider](#) to another during the [REFERRAL TO TREATMENT PERIOD](#), the [REFERRAL TO TREATMENT PERIOD](#) continues with the original [REFERRAL TO TREATMENT PERIOD START DATE](#) and the related [PATIENT PATHWAY IDENTIFIER](#) being part of the onward referral information. The [REFERRAL TO TREATMENT PERIOD](#) continues until there is a [REFERRAL TO TREATMENT PERIOD END DATE](#).

For [PATIENTS](#) who have not attended an [APPOINTMENT](#) or admission:

- Did not attend the first [APPOINTMENT](#) during the [REFERRAL TO TREATMENT PERIOD](#), where the [PRIORITY TYPE](#) of the [SERVICE REQUEST](#) was National Code 'Routine' or National Code 'Urgent'. This will complete the [REFERRAL TO TREATMENT PERIOD](#) ([REFERRAL TO TREATMENT PERIOD STATUS](#) code 33 for the scheduled [ACTIVITY](#) which the [PATIENT](#) did not attend) and a new [REFERRAL TO TREATMENT PERIOD](#) will commence at the point when the [PATIENT](#) rebooks if this occurs ([REFERRAL TO TREATMENT PERIOD STATUS](#) code 10 on the [ACTIVITY](#)).

- Did not attend the first [APPOINTMENT](#) during the [REFERRAL TO TREATMENT PERIOD](#), where the [PRIORITY TYPE](#) of the [SERVICE REQUEST](#) was National Code 'Two Week Wait'. The [REFERRAL TO TREATMENT PERIOD](#) will continue unless a clinical decision is made to discharge the [PATIENT](#) to primary care.
- Did not attend a follow-up or out-patient/diagnostic appointment. The [REFERRAL TO TREATMENT PERIOD](#) will continue unless a clinical decision is made to discharge the [PATIENT](#) to primary care. The potential effect of this is factored into the tolerances set for Referral To Treatment Consultant Led Waiting Times. See also [Discharge After Patient Did Not Attend](#).
- ~~Did not attend an admission. The [REFERRAL TO TREATMENT PERIOD](#) will continue unless a clinical decision is made to discharge the [PATIENT](#) to primary care. The effect of [PATIENTS](#) who did not attend for admission is described in [REFERRAL TO TREATMENT PERIOD DURATION \(ADJUSTED\)](#). See also [Discharge After Patient Did Not Attend](#).~~
- Did not attend an admission. The [REFERRAL TO TREATMENT PERIOD](#) will continue unless a clinical decision is made to discharge the [PATIENT](#) to primary care. See [Discharge After Patient Did Not Attend](#).

Types of [REFERRAL TO TREATMENT PERIOD](#) include:

- [Measured Referral to Treatment Period](#)
- [Cancer Referral To Treatment Period](#)
- [Referral To Treatment Period Included In Referral To Treatment Consultant-Led Waiting Times Measurement](#)

[REASONABLE OFFER INDICATOR \(RETIRED\)](#), renamed from [REASONABLE OFFER INDICATOR](#)

Change to Attribute: Changed status to Retired, Name, Description

~~An indicator of whether an offer is reasonable.~~ This item has been retired from the NHS Data Model and Dictionary.

~~National Codes:~~ The last live version of this item is available in the ~~?????~~ release of the NHS Data Model and Dictionary.

- 4 [Reasonable Offer](#)
- 2 ~~Not a [Reasonable Offer](#)~~

Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

[REASONABLE OFFER INDICATOR \(RETIRED\)](#), renamed from [REASONABLE OFFER INDICATOR](#)

Change to Attribute: Changed status to Retired, Name, Description

- Retired [REASONABLE OFFER INDICATOR](#)
- Changed Name from [Data Dictionary.Attributes.R.Radiot.REASONABLE_OFFER_INDICATOR](#) to [Retired.Data Dictionary.Attributes.R.REASONABLE_OFFER_INDICATOR](#)
- Changed Description

[EARLIEST REASONABLE OFFER DATE](#)

Change to Data Element: Changed Description

Format/Length:	an10 CCYY-MM-DD
National Codes:	
Default Codes:	

Notes:

[EARLIEST REASONABLE OFFER DATE](#) is the date of the earliest of the [Reasonable Offers](#) made to a [PATIENT](#) for an [APPOINTMENT](#) or [Elective Admission](#). It should only be included on the Commissioning Data Sets where the [PATIENT](#) has declined at least two [Reasonable Offers](#), and a Patient Pause is to be applied to the length of wait calculation performed by the [Secondary Uses Service](#).

- ~~For an [APPOINTMENT](#) this is the earliest of the [APPOINTMENT DATES OFFERED](#) where the [REASONABLE OFFER INDICATOR](#) of the [APPOINTMENT OFFER](#) is National Code '[Reasonable Offer](#)'.~~
- ~~For an [OFFER OF ADMISSION](#) this is the earliest of the [OFFERED FOR ADMISSION DATES](#) where the [REASONABLE OFFER INDICATOR](#) of the [OFFER OF ADMISSION](#) is National Code '[Reasonable Offer](#)'.~~
- For an [APPOINTMENT](#) this is the earliest of the [APPOINTMENT DATES OFFERED](#) where the [APPOINTMENT OFFER](#) is a '[Reasonable Offer](#)'.
- For an [OFFER OF ADMISSION](#) this is the earliest of the [OFFERED FOR ADMISSION DATES](#) where the [OFFER OF ADMISSION](#) is a '[Reasonable Offer](#)'.

Patient Cancellations

Where, for any reason, a [PATIENT](#) cancels or does not attend an [APPOINTMENT](#) or an [OFFER OF ADMISSION](#) the [EARLIEST REASONABLE OFFER DATE](#) for the rearranged [APPOINTMENT](#) or [OFFER OF ADMISSION](#) will be the [EARLIEST REASONABLE OFFER DATE](#) of the cancelled [APPOINTMENT](#) or [OFFER OF ADMISSION](#).

Provider Cancellations

Where, for any reason, any [Health Care Provider](#) cancels and re-arranges an [APPOINTMENT](#) or an [OFFER OF ADMISSION](#), the [EARLIEST REASONABLE OFFER DATE](#) for the re-arranged [APPOINTMENT](#) or [OFFER OF ADMISSION](#) will be the date of the earliest [Reasonable Offer](#) made following the cancellation.

Patients who are unavailable

Where a **PATIENT** makes themselves unavailable for a longer period of time, for example a **PATIENT** who is a teacher who wishes to delay their admission until the summer holidays, making a **Reasonable Offer** may be inappropriate.

In these circumstances, so long as the **Health Care Provider** could have made at least two **Reasonable Offers**, the **EARLIEST REASONABLE OFFER DATE** will be the date of the earliest **Reasonable Offer** that the provider could have offered the **PATIENT**. This must be communicated to the **PATIENT**.

Use in Commissioning Data Set version 6-0 onwards for Referral To Treatment Consultant-Led Waiting Times:

If the Commissioning Data Set record:

- relates to a **Referral To Treatment Period Included In Referral To Treatment Consultant-Led Waiting Times Measurement**
- and
- includes the **REFERRAL TO TREATMENT PERIOD END DATE** of the **REFERRAL TO TREATMENT PERIOD**
- and
- is of the following Commissioning Data Set Types:
 - **CDS V6-2 Type 130 - Admitted Patient Care - Finished General Episode CDS**
 - **CDS V6-2 Type 190 - Admitted Patient Care - Unfinished General Episode CDS**

then **EARLIEST REASONABLE OFFER DATE** must be populated in the Commissioning Data Set record if a Patient Pause (the **PATIENT** is paused on the **ELECTIVE ADMISSION LIST** because they have made themselves unavailable for treatment for a specified period (for non-clinical reasons)) is to be applied to a **REFERRAL TO TREATMENT PERIOD** by the **Secondary Uses Service**.

Failure to include **EARLIEST REASONABLE OFFER DATE** in the Admitted Patient Care General Episode Commissioning Data Set record carrying the **REFERRAL TO TREATMENT PERIOD END DATE**, will mean no Patient Pause is applied to the duration of wait calculation for the **REFERRAL TO TREATMENT PERIOD** performed by the **Secondary Uses Service**.

Use in the **Community Services Data Set**, **Mental Health Services Data Set**, **Commissioning Data Sets** (version 6-2 onwards) for Allied Health Professional Referral To Treatment:

For the **Community Services Data Set**, **Mental Health Services Data Set** and the **Commissioning Data Sets** (version 6-2 onwards) the **EARLIEST REASONABLE OFFER DATE** may be used locally to inform waiting time calculations for **Allied Health Professional Referral To Treatment Measurement**. It can be used to account for periods of time where the **PATIENT** has not accepted the first available **APPOINTMENT OFFER** and this has extended the **Allied Health Professional Referral To Treatment Measurement** waiting time, for example:

- where a **PATIENT** who is a child has been offered an **APPOINTMENT** but their parent/carer states that they wish to wait until the school holidays commence. The **SERVICE** cannot commence planned treatment until the **PATIENT** is available.
- where a **PATIENT** who is a child has been offered an **APPOINTMENT** but their parent/Carer states that they wish to wait until the school holidays commence. The **SERVICE** cannot commence planned treatment until the **PATIENT** is available.
- where the **PATIENT** works away and cannot attend for a period of time, but it is not appropriate to discharge the **PATIENT** from the **SERVICE**.

REFERRAL TO TREATMENT PERIOD BREACH DATE (RETIRED) renamed from **REFERRAL TO TREATMENT PERIOD BREACH DATE**

Change to Data Element: Changed status to Retired, Name, Description

Format/Length:	an10-CCYY-MM-DD
National Codes:	
Default Codes:	

Notes:

~~**REFERRAL TO TREATMENT PERIOD BREACH DATE** is the date that a **PATIENT** would breach the 18-week wait target for undergoing an **ACTIVITY** which would end the **REFERRAL TO TREATMENT PERIOD**.~~

~~The **REFERRAL TO TREATMENT PERIOD BREACH DATE** is the 127th day after the **REFERRAL TO TREATMENT PERIOD START DATE** of a **REFERRAL TO TREATMENT PERIOD**. This item has been retired from the NHS Data Model and Dictionary.~~

~~The last live version of this item is available in the ?????? release of the NHS Data Model and Dictionary.~~

~~Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.~~
