

NHS Data Model and Dictionary

Type: Data Dictionary Change Notice
Reference: 1730
Version No: 1.0
Subject: Retirement of Diagnostics Waiting Times and Activity Data Set
Effective Date: Immediate
Reason for Change: Retirement of out of date content
Publication Date: 30 April 2019

Background:

As part of the ongoing work to implement a new version of the NHS Data Model and Dictionary, a review of legacy and out of date data sets contained within the NHS Data Model and Dictionary has been carried out.

A number of data sets are out of date and have been identified for retirement from the NHS Data Model and Dictionary. Note that the relevant Data Set Change Notices (DSCNs) have been reviewed and withdrawn where appropriate. This Data Dictionary Change Notice (DDCN) retires the Diagnostics Waiting Times and Activity Data Set.

To view a demonstration on "How to Read an NHS Data Model and Dictionary Change Request", visit the NHS Data Model and Dictionary help pages at: https://www.datadictionary.nhs.uk/Flash_Files/changerequest.htm.

DIAGNOSTICS WAITING TIMES AND ACTIVITY DATA SET (RETIRED), renamed from DIAGNOSTICS WAITING TIMES AND ACTIVITY DATA SET

Change to Data Set: Changed Name, Description, status to Retired

This data set is out of date therefore the information should not be used. This item has been retired from the NHS Data Model and Dictionary.

For further information, see the [NHS England](#) website at: [Monthly Diagnostic Waiting Times and Activity](#).

[Diagnostics Waiting Times and Activity Data Set Overview](#) The last live version of this item is available in the ?????? release of the NHS Data Model and Dictionary.

The column headed Opt (Optionality) shows whether the data element is Mandatory M or Optional O. Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

- M – Mandatory: this data element is mandatory and the technical process (e.g. submission of the data set, production of output etc) cannot be completed without this data element being present
- O – Optional: the inclusion of this data element is optional as required for local purposes.

DIAGNOSTICS WAITING TIMES AND ACTIVITY DATA SET OVERVIEW (RETIRED) renamed from DIAGNOSTICS WAITING TIMES AND ACTIVITY DATA SET OVERVIEW

Change to Supporting Information: Changed Name, Description, status to Retired

This data set is out of date therefore the information should not be used. This item has been retired from the NHS Data Model and Dictionary.

For further information, see the [NHS England](#) website at: [Monthly Diagnostic Waiting Times and Activity](#).

The Diagnostic waiting times reporting of the monthly waiting times and activity reporting (DM01). **The last live version of this item is available in the ?????? release of the NHS Data Model and Dictionary.**

The [Diagnostics Waiting Times and Activity Data Set](#) provides definitions to support the national data collections on diagnostic tests, a key element towards monitoring waits from referral to treatment. [Organisations](#) responsible for the diagnostic test activity report the diagnostic test waiting times and the number of tests completed. **Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.**

The distinctions between the data set groups are not absolute and some procedures could be collected under more than one of the clinical groupings. A [PATIENT](#) waiting for a diagnostic investigation should be counted only once for each test they are waiting for, wherever the test is to be performed and even if there is any additional therapeutic intervention. Each test should be identified by their [OPCS Classification of Interventions and Procedures](#) coding where applicable.

The diagnostic investigations are grouped into categories of Imaging, Physiological Measurement and Endoscopy. The data set is for the monthly return covering 15 key diagnostic tests as below:

IMAGING

- Magnetic Resonance Imaging
- Computer Tomography
- Non-obstetric ultrasound
- Barium Enema
- DEXA Scan (Dual energy X ray absorptiometry)

PHYSIOLOGICAL MEASUREMENT

- Audiology—audiological assessments
- Cardiology—echocardiography
- Cardiology—electrophysiology
- Neurophysiology—peripheral neurophysiology
- Respiratory physiology—sleep studies
- Urodynamics—pressures & flows

ENDOSCOPY

- Colonoscopy
- Flexible sigmoidoscopy
- Cystoscopy
- Gastroscopy

Aggregated numbers of [PATIENTS](#) waiting for a diagnostic test/procedure funded by the NHS should be included. This includes all referral routes (i.e. whether the [PATIENT](#) was referred by a [GENERAL PRACTITIONER](#) or by a hospital based clinician or other route) and also all settings (i.e. [Out Patient Clinic](#), [WARD](#), [Imaging Department](#) or a type of [LOCATION](#) such as a Health Centre). It is recognised that there will be some overlap between [PATIENTS](#) reported in this data set and [PATIENTS](#) reported in the other waiting times data sets.

How the data set is transmitted

Information is submitted onto the [Unify2](#) database.

Further guidance

For further guidance on extracting the data sets and [PATIENT PATHWAYS](#), see the [NHS England](#) website at: [Diagnostics Waiting Times and Activity](#).

DIAGNOSTIC SERVICE REQUEST TYPE (RETIRED), renamed from **DIAGNOSTIC SERVICE REQUEST TYPE**

Change to Attribute: Changed Name, Description, status to Retired

The type of [SERVICE](#) requested for a diagnostic test/procedure.

~~[WAITING LIST](#) tests/procedures are those for which the [PATIENT](#) needs to wait on a [WAITING LIST](#) for an [APPOINTMENT](#). If the [PATIENT](#) is waiting for a first diagnostic test/procedure as part of a planned series of treatments, these should be included as [WAITING LIST](#) request types unless the procedure or test has to be carried out at a specific time for clinical reasons. [WAITING LIST](#) tests/procedures should not include any tests or procedures for [PATIENTS](#) who have a current [Hospital Provider Spell](#) and require an emergency or unscheduled diagnostic test/procedure as part of their inpatient treatment. Also excluded are any [SERVICE REQUESTS](#) for [PATIENTS](#) who are waiting for a therapeutic operation on the [ELECTIVE ADMISSION LIST](#) who may require these routine diagnostic tests/procedures following admission. This is only [SERVICE REQUESTS](#) where the prime purpose of the wait is for the diagnostic test/procedure. **This item has been retired from the NHS Data Model and Dictionary.**~~

~~A planned diagnostic test/procedure or series of procedures are those that are carried out as part of a treatment plan which are required for clinical reasons to be carried out at a specific time or repeated at a specific frequency. Examples include 6 month check cystoscopy or regular blood tests. **The last live version of this item is available in the ?????? release of the NHS Data Model and Dictionary.**~~

~~Unscheduled diagnostic tests/procedures are tests carried out following an emergency admission, as well as any diagnostic tests/procedures carried out on [PATIENTS](#) in Accident and Emergency. **Access to this version can be obtained by emailing information.standards@nhs.net with "NHS Data Model and Dictionary - Archive Request" in the email subject line.**~~

~~A test/procedure done following an [Elective Admission](#) includes any [PATIENTS](#) who have a current [Hospital Provider Spell](#) and are waiting for an emergency or unscheduled diagnostic test/procedure as part of their inpatient treatment and any [SERVICE REQUEST](#) for [PATIENTS](#) who are waiting for a therapeutic operation on the [ELECTIVE ADMISSION LIST](#) who may require these routine diagnostic tests/procedures following admission.~~

~~This classification should be recorded for all relevant tests/procedures irrespective of the referral route (i.e. whether the [SERVICE REQUEST](#) was from a [GENERAL MEDICAL PRACTITIONER](#) or a hospital based [CARE PROFESSIONAL](#) or other route) and also irrespective of the setting they are to be carried out in (e.g. inpatient ward, x-ray department etc.).~~

National Codes:

- 01 [WAITING LIST](#) for test/procedure
- 02 Planned test required
- 03 Emergency or unscheduled diagnostic test or procedure
