

Type: Data Dictionary Change Notice
Reference: 1773
Version No: 1.0
Subject: Retirement of PDS Birth Notification Data Sets
Effective Date: Immediate
Reason for Change: Retirement of out of date content
Publication Date: 24 June 2020

Background:

As part of the ongoing work to implement a new version of the NHS Data Model and Dictionary, a review of legacy and out of date data sets contained within the NHS Data Model and Dictionary has been carried out.

A number of data sets are out of date and have been identified for retirement from the NHS Data Model and Dictionary. However, it must be noted that the Information Standards still remain and these records should be submitted as required.

This Data Dictionary Change Notice (DDCN) retires the PDS Birth Notification Data Sets and supporting definitions from the NHS Data Model and Dictionary only.

To view a demonstration on "How to Read an NHS Data Model and Dictionary Change Request", visit the NHS Data Model and Dictionary help pages at: https://www.datadictionary.nhs.uk/Flash_Files/changerequest.htm.
