Type: Data Dictionary Change Notice
Reference: 1798
Version No: 1.0
Subject: Commissioning Data Set change to weekly submission
Effective Date: Immediate
Reason for Change: Change to information
Publication Date: 16 November 2020

Background:

NHS England and NHS Improvement require Acute Health Care Providers to formally move to weekly submission of ISB 0092 Commissioning Data Sets for the following CDS Types:

- Type 020 Outpatients
- Type 120 Admitted Patient Care - Finished Birth Episode
- Type 130 Admitted Patient Care - Finished General Episode
- Type 140 Admitted Patient Care - Finished Delivery Episode.

This follows a period of voluntary weekly submission to the Secondary Uses Service (SUS+), to support COVID-19 capacity planning and decision making. The same increased frequency of submission by Community, Mental Health and Acute Independent Sector Health Care Providers is expected to be in place as soon as possible and no later than 31 March 2021.

This Data Dictionary Change Notice (DDCN) updates the Commissioning Data Set Mandated Data Flows page in the NHS Data Model and Dictionary to reflect this change.

COMMISSIONING DATA SET MANDATED DATA FLOWS

Change to Supporting Information: Changed Description

The minimum [Commissioning Data Sets](#) information flow requirement to enable [Hospital Episode Statistics, 18 Weeks ACTIVITY](#) reporting, and the [National Tariff Payment System](#) to be supported by the [Secondary Uses Service](#) is shown in the table below.

The [Secondary Uses Service](#) supports every [CDS Type](#) but only a subset is mandated to flow.

[Commissioning Data Sets](#) may flow to the [Secondary Uses Service](#) using either Net Change or Bulk Replacement [Commissioning Data Set Submission Protocols](#). Many Standard NHS Contracts between [Health Care Providers](#) and the commissioners of their [SERVICES](#), now specify weekly submission of initially-coded data sets to the [Secondary Uses Service](#). The use of Net Change [Commissioning Data Set Submission Protocols](#) is recommended for submissions of this frequency.

Commissioning Data Set records where the activity relates to a [Referral To Treatment Period Included In Referral To Treatment Consultant-Led Waiting Times Measurement](#) must include the PATIENT PATHWAY data group items, from 1st October 2009.

[NURSE](#) and [MIDWIFE](#) attendances and Attendances for nursing care were enabled to be carried in the Out-Patient Attendance Commissioning Data Set from 1 April 2005, [DSCN 32/2004](#) Other Care Professional Attendances where an appropriate Treatment Function exists may also be submitted.
